

Studieplan 2012/2013

1028 Norwegian culture and society

Faglig innhold/læringsutbytte

Expected learning outcomes:

The objectives of the course are to give the students an insight into the historical background, development and the present day challenges of the Norwegian society.

The students shall reflect on the interdependence between history, international framework, politics, economy and culture in such a way that are able to compare the Norwegian case with their own country.
